Bengaluru, India

Education

B. Tech Computer Science

Lovely Professional University, Punjab
Class of 2019

Languages

English, Hindi, Kannada, Telugu

Experience

CHESS CLOCK

January 2022 - Present

LPU, Punjab

I'm currently working on an iOS app for Chess Players which serves as a clock with custom time formats, namely Classical, Rapid, Blitz and Bullet.

- Used XCode to build the app to natively run on all iPhone devices
- Built the app using Swift Language and UIKit Framework

FLICKR SEARCH

June 2021 - July 2021

Techvanto Academy, New Delhi

During my 4 week live summer training I worked on a single-view iOS project to a searchable Flickr Feeds application.

- Used the best practices for consuming a JSON response from Flickr and efficiently downloading images in the background thread.
- Strengthened the relationship between Swift by integrating a third-party into Swift Project

SWOOSH APP

January 2021 - February 2021

LPU, Punjab

During my initial days iOS Development I worked on a front-end replica of an application that lets you find your nearest basketball players with matching skill-set.

- Designed the complete UI using SwiftUI and UIKit Library with the help of Segues and UICollectionViewController
- Strengthened the fundamentals of app development.

Skills

- | | | |
